

Neural Interfaces

2025 HOSTED BY NORTH AMERICAN
NEUROMODULATION SOCIETY

Exhibitor Prospectus & Sponsorship Opportunities

About the Conference

Neural Interfaces 2025 is where scientists, engineers, clinicians, venture capital, industry, and government define questions and develop solutions to unlock the true promise of neural interfaces to impact health. Neural Interfaces 2025 combines community-inspired meeting sessions with active discussion to address critical questions to move the field forward.

As an exhibiting partner, you will have access to a diverse audience of approximately 400-600 united by a common goal of advancing the field of neuromodulation. The meeting will be a non-CME meeting. Abstracts and proposals for presentations will be accepted by all working in the field, including industry.

Location and Dates of the Conference

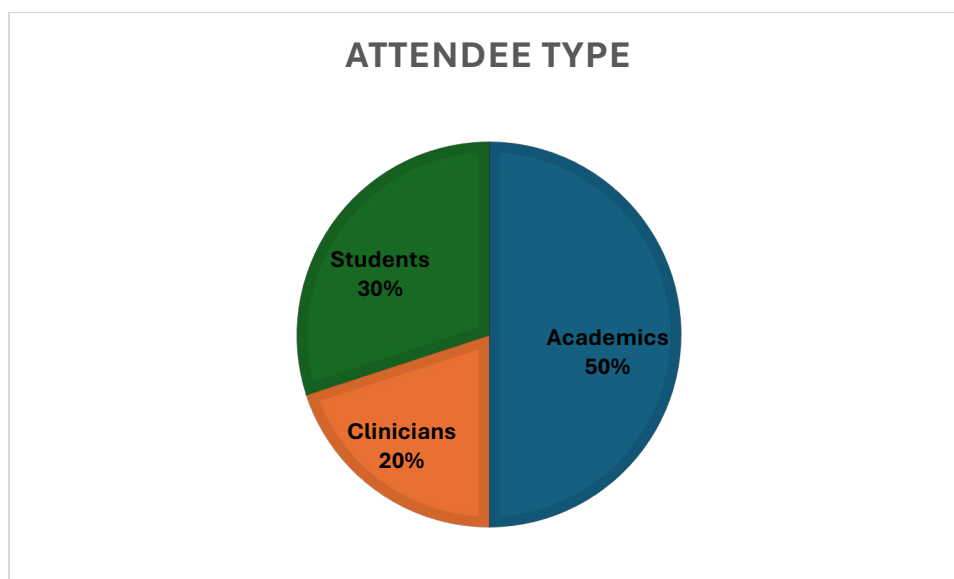

- Crystal Gateway Marriott, Arlington, VA
- Thursday, June 12 – Saturday, June 14, 2025

History of the Conference

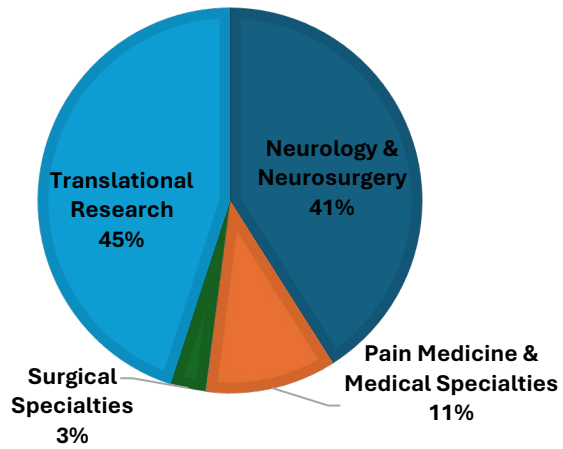

First hosted in 1970 as the “NIH Neural Prosthesis Workshop,” the Neural Interfaces Conference has grown over the decades to become the leading meeting to explore and to advance neural-interface technology and therapies. The North American Neuromodulation Society (NANS) hosted the 2016 and 2021 meetings, and will be hosting Neural Interfaces 2025, with plans to continue in 2027 and beyond.

- 2021 – 337 participants - Virtual
- 2018 – 400 participants - Minneapolis, MN
- 2016 – 500 participants - Baltimore, MD
